

Mechanical Technician

JOB.24.3.22.ROM.A

Mechanical Technician

Microwave Vision Italy, Pomezia ITALY

The MVG innovation and design team in Pomezia, Italy is a world leader in antenna design and production as well as software for measurement solutions. Microwave Vision Italy is a worldwide centre of excellence on antenna design, both RF and mechanic. The group is equipped with state-of-the-art design tools and rapid antenna measurement systems for accurate verification. Due to the continued development and investment in human and material resources, we are again looking for outstanding candidates that are willing to take part of the exciting development of the group.

Job Description

After a training period, the ideal candidate will become an active member of the Production Department involved in the design, development, manufacturing and integration of MVG antenna products.

Requirements

- High School Diploma with Mechanical/Mechatronic specialization (with high marks).
- Knowledge of technical drawing and related standards.
- Capacity to work in a strong team-oriented, collaborative environment.
- Good communication skills in the main languages used within MVG: English (required), Italian (required), French (desired).
- Valid working permit for the European Union (required).
- Driving license (required).

Desired Skills

- Knowledge of Microsoft Office Package (Excel, Word, Power Point, Outlook).
- Familiarity with 3D CAD software (Solid Works desired).
- Practical attitude for assembly and integration of mechanical components.

Work Conditions

Work base is the MVG office in Pomezia, Italy but the candidate must be willing to occasionally travel to other MVG sites and participate in meetings and conference outside Italy.

Application to be sent to: lars.foged@mvg-world.com
