

ERP & Data Technico-Functional Lead |

UAN – 5E646E

Department: Information Systems

Location: Office / MVG Industries (Villejust)

Type: Full-time

About the Role

We are looking for an ERP & Data Technico-Functional Lead to join MVG's Information Systems team and drive operational excellence across business applications and digital transformation projects. Acting as the key link between business teams and IT, you will ensure ERP ecosystems, interfaces, automation workflows, and data processes run smoothly and deliver measurable value. This role is ideal for a hands-on technico-functional project leader who enjoys process optimization, cross-functional collaboration, and international environments.

About MVG

MVG – Microwave Vision Group – is the global leader in electromagnetic field measurement solutions. With 400+ employees, offices across 4 continents, and over 25 years of consecutive growth, we help the world's most innovative companies test, validate, and push the boundaries of wireless technology. Our mission: Testing Connectivity for a Wireless World.

Join us to shape the future.

Responsibilities

- Lead IT projects from scoping through go-live, ensuring delivery against quality, timeline, and budget objectives.
 - Manage business application support for ERP systems, automation tools, and interfaces, including user request intake, resolution, and documentation.
 - Ensure functional configuration, interface monitoring, data consistency, and up-to-date functional documentation across core systems.
 - Collaborate with business teams, developers, vendors, and external IT partners to define requirements, write functional specifications, and deliver timely fixes.
 - Oversee the full testing cycle, including technico-functional testing, user acceptance testing, go-live preparation, post-deployment monitoring, and end-user training.
 - Implement process automation workflows using tools such as Microsoft Power Automate, SharePoint, and Make to improve operational efficiency.
-

Requirements

- Master's degree or Bac +5 in Information Systems, Project Management, or an equivalent field.
 - 3 to 5 years of experience in functional IT project management, ideally involving ERP and business application environments.
 - Hands-on experience with ERP systems, low-code tools, APIs, interfaces, and functional configuration.
 - Broad understanding of business processes across finance, procurement, sales, HR, and production.
 - Fluent written and spoken English, with the ability to work daily with international subsidiaries.
 - Ability to translate functional requirements into robust technical solutions and communicate effectively with both technical and non-technical stakeholders.
 - Customer-oriented, curious, autonomous, and eager to learn in a fast-paced international environment.
-

Nice to Have

- Knowledge of Microsoft Power Platform, including Power Automate, Power BI, and SharePoint.
- Experience working in an international, multi-entity environment.
- Familiarity with Make or similar automation and integration tools.

How to Apply

Send your CV and a short cover note to careers@mvg-world.com with the subject line: ERP & Data Technico-Functional Lead – Application. We review applications on a rolling basis and aim to respond within two weeks. We look forward to hearing from you!
