

Installation and Integration Technician |

UAN – 3183E5

Department: Engineering / Integration

Location: Office / MVG Israel (Emek Hefer)

Type: Full-time

About the Role

MVG is looking for an Installation and Integration Technician to assemble, integrate, test, and support advanced mechanical measurement systems. This role is critical to ensuring product quality, reliable system performance, and continuous process improvement, and is ideal for a hands-on mechanical or electromechanical technician who enjoys multidisciplinary teamwork and international travel.

About MVG

MVG – Microwave Vision Group – is the global leader in electromagnetic field measurement solutions. With 400+ employees, offices across 4 continents, and over 25 years of consecutive growth, we help the world's most innovative companies test, validate, and push the boundaries of wireless technology. Our mission: Testing Connectivity for a Wireless World.

Join us to shape the future.

Responsibilities

- Implement assembly, integration, testing, and process activities for mechanical measurement systems.
- Ensure product quality by identifying, locating, and supporting resolution of mechanical and system-level faults.
- Collaborate with engineering, production, quality, and other interfaces to deliver reliable multidisciplinary assemblies.
- Optimize work processes by applying initiative, systemic understanding, and a continuous improvement mindset.
- Manage work safely in complex installation environments, including working at height when required.
- Ensure accurate execution of tasks based on mechanical assembly drawings and technical documentation.

Requirements

- Mechanical Technician or Practical Engineer qualification.
- Previous experience working with electromechanical systems or multidisciplinary mechanical assemblies.
- Strong ability to read, understand, and work from mechanical drawings.
- Good English communication skills and willingness to travel abroad approximately 30% of the time.
- High self-learning capability, initiative, systemic vision, and strong fault-identification skills.
- Strong teamwork skills, interpersonal relations, and ability to work with multiple internal and external interfaces.

Nice to Have

- Forklift license.
 - Familiarity with excellence methodologies, tools, and process improvement methods.
 - Experience working at height in installation or integration environments.
-

How to Apply

Send your CV and a short cover note to careers@mvg-world.com with the subject line: 3183E5 - Installation and Integration Technician. We review applications on a rolling basis and aim to respond within two weeks. We look forward to hearing from you!

MVG - Testing Connectivity for a Wireless World
