

## Drafter | UAN – 5CBAD5

**Department:** Engineering

**Location:** Office / MVG Israel (Emek Hefer)

**Type:** Full-time

---

### About the Role

MVG is seeking a detail-oriented Drafter to create accurate technical drawings and 3D models based on engineering specifications for advanced antenna measurement, RCS, and EMC technology projects. This role supports engineering and project teams by translating concepts into precise documentation that meets international standards, quality expectations, and project timelines. It is ideal for a CAD professional with SolidWorks expertise who thrives in a multidisciplinary, global engineering environment.

---

### About MVG

MVG – Microwave Vision Group – is the global leader in electromagnetic field measurement solutions. With 400+ employees, offices across 4 continents, and over 25 years of consecutive growth, we help the world's most innovative companies test, validate, and push the boundaries of wireless technology. Our mission: Testing Connectivity for a Wireless World.

Join us to shape the future.

---

---

## Responsibilities

- Develop accurate technical drawings, models, schematics, and documentation based on engineering specifications and design inputs.
- Collaborate closely with engineers, engineering teams, and project stakeholders to translate concepts into detailed production-ready plans.
- Ensure drawings and documentation comply with relevant engineering standards, codes, regulations, and quality requirements.
- Manage drawing revisions and updates based on engineering feedback while maintaining clear documentation and version control.
- Optimize technical documentation for clarity, precision, and usability across multinational and multidisciplinary projects.
- Implement effective time management practices to support multiple concurrent projects and meet project deadlines.

---

## Requirements

- Diploma or Associate/Bachelor's degree in Drafting, Engineering Technology, Architecture, or a related field.
- 2–5 years of experience as a Drafter in an engineering or manufacturing environment.
- Mandatory proficiency in SolidWorks CAD software for preparing detailed technical drawings and models.
- Proven experience preparing detailed technical drawings and revising plans based on engineering feedback.
- Fluent English, written and spoken, mandatory for global collaboration.
- Familiarity with engineering standards, codes, and regulations relevant to the industry.
- Strong computer skills, including Microsoft Office tools such as Excel, Word, and Outlook, with the ability to manage digital documentation and version control systems.

---

## Nice to Have

- Professional certification such as Certified Drafter or equivalent.
  - Experience working on international or multidisciplinary projects.
  - Experience with additional CAD or engineering software tools.
  - Problem-solving mindset and adaptability in a dynamic, international environment.
-

## How to Apply

Send your CV and a short cover note to [careers@mvg-world.com](mailto:careers@mvg-world.com) with the subject line: 5CBAD5 - Drafter. We review applications on a rolling basis and aim to respond within two weeks. We look forward to hearing from you!
