

APAC Program Manager - TLV | UAN – AD864F

Department: Program Management / Engineering

Location: Office / MVG Israel (Emek Hefer)

Type: Full-time

About the Role

As APAC Program Manager at MVG Israel, you will lead a portfolio of complex, large-scale engineering programs delivering state-of-the-art wireless device test and calibration facilities for global defense and space customers. This role is ideal for an experienced technical project manager who thrives in multidisciplinary environments, can drive turnkey solutions from purchase order through installation, and confidently manages international customers across APAC and EMEA.

About MVG

MVG – Microwave Vision Group – is the global leader in electromagnetic field measurement solutions. With 400+ employees, offices across 4 continents, and over 25 years of consecutive growth, we help the world's most innovative companies test, validate, and push the boundaries of wireless technology. Our mission: Testing Connectivity for a Wireless World.

Join us to shape the future.

Responsibilities

- Lead end-to-end project execution for multiple complex programs, including SRR, PDR, CDR, FDR, FAT, and on-site installation milestones.
- Develop detailed project plans, work breakdown structures, schedules, and execution roadmaps from customer purchase orders and technical specifications.
- Manage global customer communication, expectations, and satisfaction across different cultures, remote sites, and time zones.
- Collaborate with Systems, RF, Electrical, Mechanical, and Software Engineering teams to ensure design alignment, integration, and successful delivery.
- Oversee program budgets, costing, ECAC management, and profitability tracking throughout the project lifecycle.
- Drive proactive risk assessments to identify and resolve technical, schedule, and supply chain bottlenecks.
- Ensure on-site installation and commissioning activities deliver turnkey systems that meet rigorous performance specifications.

Requirements

- B.Sc. in Engineering is required.
- Over 3 years of project management experience in large-scale, multidisciplinary engineering projects.
- Proven experience working with global customers and remote sites.
- Broad technical understanding across engineering disciplines, with the ability to connect technical milestones to business and financial outcomes.
- Strong communication, customer orientation, and stakeholder management skills, including the ability to influence without direct authority in a matrix environment.
- Ability to thrive in a high-pressure, fast-paced environment with shifting priorities.
- Proficient English level and willingness to travel across APAC and EMEA to support project milestones and customer relations.

Nice to Have

- PMP certification.
- Experience in System Engineering.
- Experience delivering turnkey systems for defense, space, RF, antenna measurement, RCS, EMC, or wireless device test environments.

- Strong cross-cultural communication skills gained through APAC and EMEA customer-facing work.

How to Apply

Send your CV and a short cover note to careers@mvg-world.com with the subject line: AD864F - APAC Program Manager - TLV. We review applications on a rolling basis and aim to respond within two weeks. We look forward to hearing from you!
