

Installation and Integration Operator | UAN

– ACC8F9

Department: Engineering / Integration

Location: Office / MVG Israel (Emek Hefer)

Type: Full-time

About the Role

MVG is looking for an Installation and Integration Operator to assemble, integrate, and test advanced mechanical measurement systems. This role is ideal for a hands-on mechanical technician or practical engineer with electromechanical experience, strong fault-finding skills, and the ability to work with multidisciplinary teams. The position has a direct impact on product quality, customer readiness, and successful system delivery, including international travel of approximately 30%.

About MVG

MVG – Microwave Vision Group – is the global leader in electromagnetic field measurement solutions. With 400+ employees, offices across 4 continents, and over 25 years of consecutive growth, we help the world's most innovative companies test, validate, and push the boundaries of wireless technology. Our mission: Testing Connectivity for a Wireless World.

Join us to shape the future.

Responsibilities

- Implement assembly, integration, testing, and process execution for mechanical measurement systems.
- Ensure accurate interpretation and application of mechanical assembly drawings during installation and integration work.
- Optimize system performance by identifying, locating, and supporting resolution of mechanical and electromechanical faults.
- Collaborate with engineering, production, quality, and field teams across multiple interfaces to deliver reliable integrated systems.
- Drive product quality awareness and contribute to continuous process improvement activities.
- Manage multidisciplinary mechanical assembly tasks, including work at height when required.
- Ensure safe and professional execution of installation activities during local and international assignments.

Requirements

- Mechanical Technician or Practical Engineer qualification.
- Previous experience in electromechanical systems, mechanical assembly, integration, or related technical positions.
- Strong ability to read and understand mechanical drawings and assembly documentation.
- Systemic understanding with the ability to identify, locate, and troubleshoot faults.
- Good English skills and willingness to travel abroad approximately 30% of the time.
- High self-learning ability, initiative, quality awareness, and systemic vision.
- Strong teamwork skills, good interpersonal relations, and ability to work with multiple interfaces.

Nice to Have

- Forklift license.
- Familiarity with operational excellence tools, methods, and continuous improvement practices.
- Experience with multidisciplinary mechanical assemblies in high-tech or

measurement-system environments.
- Comfortable working at height when needed.

How to Apply

Send your CV and a short cover note to careers@mvg-world.com with the subject line: ACC8F9 - Installation and Integration Operator. We review applications on a rolling basis and aim to respond within two weeks. We look forward to hearing from you!
