

Installation and Integration Technician |

UAN – E1B124

Department: Engineering / Installation & Integration

Location: Office / MVG Israel (Emek Hefer)

Type: Full-time

About the Role

MVG is looking for an Installation and Integration Technician to assemble, test, and support the integration of advanced mechanical measurement systems. This role is ideal for a hands-on mechanical technician or practical engineer with electromechanical experience, strong troubleshooting ability, and readiness to travel internationally approximately 30% of the time.

About MVG

MVG – Microwave Vision Group – is the global leader in electromagnetic field measurement solutions. With 400+ employees, offices across 4 continents, and over 25 years of consecutive growth, we help the world's most innovative companies test, validate, and push the boundaries of wireless technology. Our mission: Testing Connectivity for a Wireless World.

Join us to shape the future.

Responsibilities

- Implement assembly, testing, and process execution for mechanical measurement systems.
- Ensure accurate interpretation and application of mechanical assembly drawings.
- Drive fault identification, troubleshooting, and resolution using a systemic understanding of electromechanical systems.
- Collaborate with multidisciplinary teams and internal interfaces to complete integration activities effectively.
- Ensure product quality standards are maintained throughout assembly, testing, and integration processes.
- Optimize processes by identifying improvement opportunities and applying a proactive, quality-focused mindset.
- Manage work at height and on-site installation activities as required, including international travel.

Requirements

- Mechanical Technician or Practical Engineer qualification.
- Previous experience working with electromechanical systems.
- Proven ability to read and understand mechanical drawings and assembly documentation.
- Experience with multidisciplinary mechanical assemblies and hands-on technical integration work.
- Good English communication skills.
- High self-learning ability, initiative, systemic vision, and strong interpersonal skills.
- Willingness and ability to travel abroad approximately 30% of the time.

Nice to Have

- Forklift license.
- Familiarity with operational excellence tools, methods, and continuous improvement practices.
- Experience working safely at height in installation or integration environments.

How to Apply

Send your CV and a short cover note to careers@mvg-world.com with the subject line: E1B124 - Installation and Integration Technician. We review applications on a rolling basis and aim to respond within two weeks. We look forward to hearing from you!

MVG - Testing Connectivity for a Wireless World
